EACA Symposium 2025 Poster Template

This poster template is not mandatory, but you are highly encouraged to use it! Use this as a starting point and adapt it to meet your needs.

Research recommends:

◆ Clear conclusions/main finding at the start

◆ Infographics or large figures

◆ Uncluttered layout – link to additional info with a QR code

◆ High contrast colors and large font

Tips for your poster:

◆ Use bold to emphasize important words in your main findings and elsewhere.

◆ The color behind the top findings box can be changed – to a solid color, a texture, or even a picture.

◆ You are welcome to change the colors to match your host institution/organization.

◆ If you'd like to use a picture on your poster, we recommend choosing light and bright imagery that works in harmony with your poster's color palette. See Cochrane's [image check-list](#) for more help.

QR Codes

◆ To create a QR code, we recommend the free QR code maker at [QR Code Monkey](#).

◆ Want to link your QR code to multiple things like your paper, a copy of your poster and your contact details?
Try hosting the links all in one spot and link to that; it could be a social media post that you link to or a free online tool like [Linktree](#).

Tips for poster accessibly

◆ Have your QR code link to an online audio and/or video walkthrough of your poster

◆ Have a few handouts for people who can't scan a QR code

◆ Consider using a [colourblind checker](#) to ensure your poster is accessible to viewers with different types of colorblindness.
